

Dreams Can Come True

If I had a wish - that could come true
My wish would be for you
and everyone, in this world

I would wish for peace, across this land
that we could learn to share
with everyone, in this world

join me in a brand new song
we can get along
make our wish come true
it's all up to you

If I had a dream - that could come true
my dream would be for you
and everyone, in this world

I would dream of peace, across this land
that we could learn to share
with everyone, in this world

La, la, la, la, la ,la, la, la, la, la, la, etc.

If I had a wish - that could come true
My wish would be for you
and everyone, in this world

If I had a dream - that could come true
my dream would be for you
and everyone, in this world
