

The Green Song

green, working in the garden, **green** on the trees c-g-c
green, four leaf clover, **green** grass stains on my knees g-c

green, green meadows - green green valley f-c
green,green forest - as far as you can see g-c
clean, clean rivers - clean, clean oceans f-c
clean clean water for you and me e-am-g

green turning off the tv
green, go play outside
green turning off a light bulb
green clean energy

green, green meadows - green green valley
green,green forest - as far as you can see
clean, clean rivers - clean, clean oceans
clean clean water for you and me

green is the way that we get there
green, ride your bike
green, leave the car in the driveway
green, take a hike

green, green meadows - green green valley
green,green forest - as far as you can see
clean, clean rivers - clean, clean oceans
clean clean water for you and me

green, working in the garden, green on the trees
green, four leaf clover, green grass stains on my knees
