

One Hug (c)1997 Hans Mayer

One hug can make it all better
A hug can wipe the tears away
One hug can make it all better
Did you get your hug today?

One kiss can make it all better
A kiss can take the hurt away
One kiss can make it all better
I better get a band aide anyway

I don't cry (oh no) 'cause big kids don't cry
I don't cry, I've got something in my eye

One smile can make it all better
A smile can chase the clouds away
One smile can make it all better
And help the sun come out today

One laugh can make it all better
A laugh can keep the blues away
One laugh can make it all better
Did you have a laugh today

I can laugh (Oh Yeah) 'cause big kids can laugh
I can laugh, I'm having a laughing attack

One hug can make it all better
A kiss can take the hurt away
One smile can bring sunny weather
And a giggle a day can keep the blues away

Ah, huh, huh, oh yeah
Ah, huh, huh, oh yeah
Ah, huh, huh, mm
