

I Wish I Could Ride With Santa Claus

Words & Music by Hans Mayer Copyright Myther Music 1998

I wish I could ride along with Santa Claus

On Christmas Eve this year

I wish I could ride along with Santa Claus

And spread the Christmas Cheer

Bringing lots of toys to every boy & girl

That have been good, like they should, all around the world

I wish I could ride along with Santa Claus

And I could drive the sleigh

I wish I could ride along with Santa Claus

While Rudolf guides the way

I could keep watch for objects in the sky

Don't want to crash into a jet, or a duck that's flying by

I wish I could ride along with Santa Claus

I could meet his Elves

I wish I could ride along with Santa Claus

And see them for myself

Happy little magic folk, working real hard

Wearing flashy little clothes, reading Christmas cards

I wish I could ride along with Santa Claus

And help to wrap the gifts

I wish I could ride along with Santa Claus

Then I'll know what I'll get

Then I would know what presents are for me

And what's inside of every gift that's underneath the tree

I wish I could ride along with Santa Claus

I wish I could ride along with Santa Claus

I wish I could ride along with Santa Claus

On Christmas Eve this year!
