

Snow is Fun

Words & Music by Hans Mayer Copyright Myther Music 1998

Let's build a snowman in the yard - it won't be very hard

Charcoal eyes, carrot nose, a big white suit from head to toe

Let's build a snowman in the yard

Let's make angels in the snow - dress warm so you won't get cold

Lay right down in the snow, flap your arms to & fro

Let's make some angels in the snow

Chorus: Christmas is that time of the year

Everybody brings good cheer

Peace on earth, good will toward man

And snow is fun for playing in!

Let's go sledding down the hill - see how fast we can go

Hit a bump, tip the sled, lose the hat right off my head

Let's go sledding down the hill.

(Repeat Chorus)

Let's go skating on the lake - check the ice make sure it's safe

Round and round falling down - a figure 8, looking great!

Let's go skating on the lake.

Here comes Santa in his sleigh - I'm not talking a big old Chevrolet

All the reindeer side by side pulling Santa through the sky

Here comes Santa in his sleigh (Repeat Chorus)
